

OZONE GENERATORS

High technology ozone generator, which generates OZONE pro (O₃), when connected to its high voltage source.

Ozone is an activated oxygen, which due to its oxidizing power is bactericidal (eliminates bacteria), is germinicidal (eliminates germs), is anti-mites (eliminates mites), and is an anti-virus (eliminates viruses).

Eliminates bad odors, as well as strong and intense odors of:

Plants, aromatic herbs, and exotic or farm animals.

Eliminates the smell of tobacco.

Eliminate cat or dog smell.

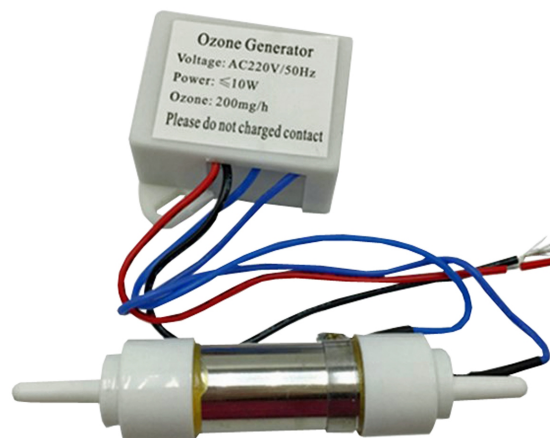

Eliminates the bad smell of the bathrooms, neutralizing the environmental odor.

Ideal for residences, swimming pools, hospitals and gyms.

Ozone has the property of sterilizing

C-6886T Generates 500 mg / hour -
Transformer included -
Connection to 230VAC

C-6885T Generates 200 mg /
hour - Transformer included -
Connection to 230VAC

C-6887T Generates 1 gr / hour -
Transformer included -
Connection to 230VAC

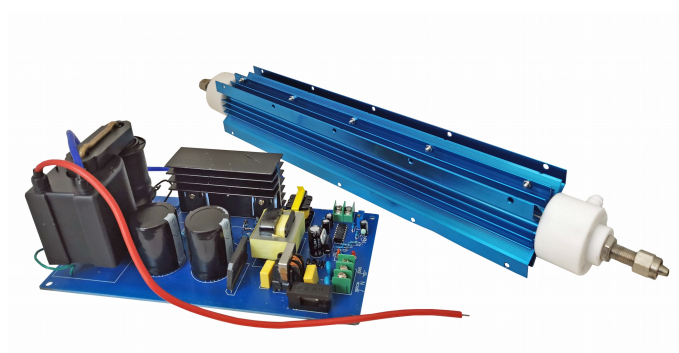

C-6888T Generates 2 gr / hour
- Transformer included -
Connection to 230VAC

C-6890T Generates 10 gr / hour -
Transformer included -
Connection to 230VAC

C-6889T Generates 5 gr / hour
- Transformer included -
Connection to 230VAC

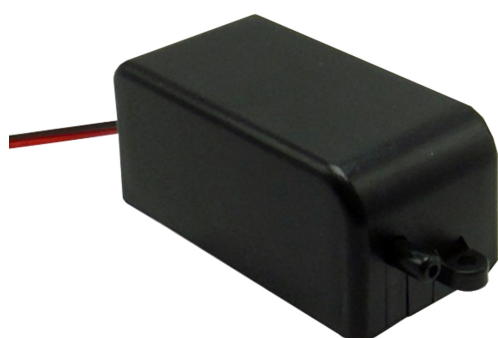

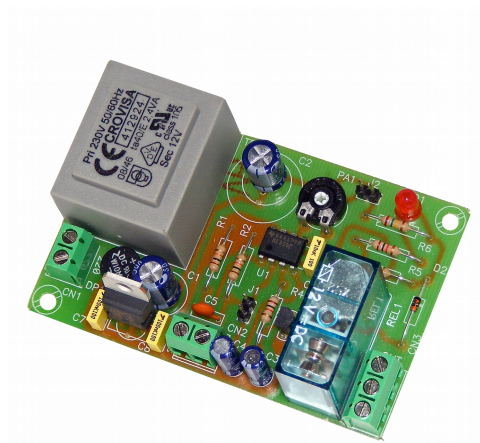

C-6891T Generates 20 gr / hour –
Transformer included -
Connection to 230VAC

NOTE : These ozone generators should not be working 24 hours a day, every day.

They're going to crash, and over-heat their power supplies. It is necessary to time every 6-10 minutes, a third of the time worked, and that the generated ozone turns into oxygen, and in turn, rest the generator and its source.

See Cebek's range of cyclic timers.

Universal timer.
230VDC power supply.
CEBEK ref. I-102

C-6007 Mini A400 air pump.
For small ozone generators of
200 and 500 mg.
Reference C-6885T and C-6886T

NOTE

Eliminates bad odors, as well as strong and intense odors of:

Plants, aromatic herbs, and exotic or farm animals.

Eliminates the smell of tobacco.

Eliminate cat or dog smell.

Eliminates the bad smell of the bathrooms, neutralizing the environmental odor.

Ideal for residences, swimming pools, hospitals and gyms.
